Explanations

This Index is not meant to be a full name index but is a subject index with several changes and additions to make it easier for the genealogist and/or family researcher to find the people searched. It contains over 32,000 entries.

The names of the husbands of women married before 1825, in family genealogies and bible records have been included. Where the husbands first name is missing, the woman's name is included with her maiden and married name, (ie: ADAMS, Esther (Fowler)). These additions greatly enlarge this index and make it much more useful.

FAMILY GENEALOGIES are included in several inclusive page numbers :
ALEXANDER, James 1881 V12 #3 p111-123
and are listed by the last name of the family and usually with the immigrant ancestors first name.

BOOK NOTES / BOOK REVIEWS are included and listed by the subject or family name, not as "My Forefathers" which tells you nothing about the contents. Many would like to know if their family name has been published in a genealogy, finding it in the NYG&BR gives a quick review of the books contents.

CHURCH RECORDS are given under the State and then the Town and include pages, contents and years of record included. See above for abreviations.

OBITUARIES usually contain much information on the ancestry of the person.

PEDIGREES show the descent from the immigrating ancestor to the present generation and have been listed by the immigrants name.

QUERIES, NOTES, NOTES AND QUERIES often give more information than just the one person.

ADDITIONS and CORRECTIONS are listed in the family name and often make corrections in this publication and others.
